

Linda Lulli

Vice President for Human Resources
Bryant University

Continuously learning and making a difference, both personally and professionally, has been guiding me throughout my life. I have been a volunteer leader for a number of organizations throughout my life and believe those experiences have been not only meaningful, but personally rewarding. I want to make a meaningful contribution in whatever I commit to do.

My work with CUPA-HR, especially on the national board, has provided me with so many opportunities to develop not only as a leader, but to make meaningful contributions to advance the association and touch the lives of many. Building future leaders and accelerating the capability of new board members to be fully productive contributors on the board has been a special focus of mine that I hope has left the association in a better place and has served as a model for our regions and chapters to follow. The network of colleagues I have developed through my CUPA-HR experiences has been an invaluable resource.
